An inquest into the death of Jos. "Lefty" Lojwanick, killed in an automobile accident on Main street, Antioch, on May 13, will take place next Wednesday, September 25th at the Strang Funeral home.

It will be remembered that the tragic accident also caused the death of Herman M. Arthur Hawkins, owner of the car, was only slightly injured.

The inquest will take place at 10:30 a. m.

Mrs. Walter Hills, of Antioch, was installed as sergeant-at-arms at the installation of the Tenth District American Legion Auxiliary Monday evening at Lake Forest.

Firemen's Dance Starts Fund for New Building

Between 1,000 and 1,200 persons attended the firemen's dance last Saturday night at the Regal China Company's new building on North Ave.

Earl Goltz' orchestra from Waukegan provided the music and the dance was considered a success in all respects.

Through other entertainment, the firemen made a substantial sum of money, yet unannounced, which will serve as a nucleus for their building fund. Because surveying has not yet been completed for the proposed new city hall the matter of combining the fire department with that new building has not yet been brought to a focus, but the firemen have come to a definite conclusion that they will have to have a new building to house future equipment.

Sleeping Rider Causes Driver to Wreck Car and Kill His Father
When a sleeping passenger in a south bound automobile on Rte. 45 near the state line unknowingly shoved his foot against the foot of the driver on the accelerator, he caused an accident which cost the life of the driver's father Sunday.

Fatally injured was John Nelson, Sr., 46, 5307 N. Clark st., Chicago, but only slightly injured were his son, John Jr., 19, driver of the car and Urban Kalhauge, 38, of 3839 1/2 N. Western Ave., Chicago.

The boy told Lake county deputy sheriffs that they returning from a fishing trip to Twin Lakes, Wis., and he drove because the older men were tired and wanted to sleep.

In stretching, Kalhauge shoved against Nelson's foot on the accelerator and the car gathered so much speed the boy lost control. He said he was unable to stop for a barricade and as he swerved the wheels locked and he crashed into a parked car of J. C. Welker, of Kansasville, Wis.

Welker's car was thrown 35 feet beyond the point of impact and the Nelson car turned end over end.

The driver and Kalhauge were thrown clear of the wreckage but the elder Nelson was pinned beneath it and crushed so that death was instant. Besides his son, Nelson is survived by his wife.

The winner of first prize in the state contest will receive a four-year scholarship at the University of Illinois and a gold medal. The second award will be a two-year scholarship and a silver medal. Antioch 4-H Judges Not Listed for Honors

The Campaign, Iroquois, Kendall, McDonough and Montgomery county 4-H teams were selected as "A" judges in the state livestock judging contest at Urbana.

Antioch and Newport club members competed in this contest and the Prairie and Newport club members were entered in the poultry judging contest won by Will county.

Burning Rubbish Causes \$20,000 Fire Loss Today

Antioch Department Has Two Calls at Noon Today

An unattended fire which was set to burn rubbish resulted in a loss estimated at \$20,000 on the farm of Dr. Ellery H. Harvey, route 45, north of Millburn today at noon. The fire consumed a large barn, spring house, and other buildings. The barn and tool shed were a total loss, and while not exceptionally expensive in themselves, they contained a large quantity of building material, machine tools, and other equipment.

The farm is located in the extreme northeast corner of Lake Villa township, east of route 45, and the Lake Villa fire department was called, after the fire was out of control by workers on the farm. The Lake Villa department immediately called the Antioch department and the two managed to save the buildings which were not already burned.

Dr. Harvey is employed by the U. S. government as a research chemist, and was here on a three-week vacation. He was chiefly responsible for the invention of waterproof glue during the first World War and has been engaged in work with paints during the past few years. Due to a heart condition, his work in trying to extinguish the flames caused a collapse and he was given emergency treatment for shock by members of the Antioch Rescue squad and a doctor summoned.

A second call was received while the firemen were fighting the fire at Millburn, the cause being a grass fire on North Main street, which was promptly put out by firemen who remained in Antioch.

The only other call during the week was a grass fire Tuesday afternoon at Selter's subdivision, Grass Lake.

Chief Cleto Vos issued a warning this week that due to the subdivisions being more or less empty during the week that residents of these areas should exercise extreme care with fire and be on the watch for blazes of this kind.

With the advent of cooler, wetter weather a sharp drop in the number of grass fires is expected.

OPA Rollback of Food Prices Hurts Cafes; Few Resorts to Close

Antioch Restaurants Believe They Will Not See Many Reductions

Local restaurant men have not conferred and decided upon what position they will take regarding the rollback of prices to June 30 as ordered by the office of price administration.

Members of the Illinois Restaurant association, they were expecting the association to represent them in Washington where a big protest has been made.

Prices in Antioch raised but little when the OPA ceilings went off. Taverns and resorts were harder hit and it was the report that those who do not close for the winter may dispense with the food sales and just sell liquors.

Along the North Shore where one-fourth of the population eats in restaurants there was deep concern. Waukegan-North Chicago Restaurants Dealers association decided to defy the OPA order and if compelled to submit say they will close their places rather than operate at a loss.

The restaurant men say that not only has meat gone up more than 20 per cent but other foods such as butter, milk, eggs, bread, coffee and pie fruits such as cherries also have increased in price and these constitute more than half the cost of the meal. Labor has advanced 55 per cent the IRDA reported.

Sequoits Ready for Warren in First Home Game

Try for Victory After Losing First Game to McHenry There 31-0

Antioch High will play its first home game of the football season at 8 p. m. Friday when they meet Warren High under the lights.

A few changes may be made in the team that started last week at McHenry where the Sequoits lost 31 to 0. Fumbles and an opposition that had progressed farther in its training were responsible for the defeat, but Coach Maurice Krizan says his team will make a vastly different showing this week.

Assistant Coach Richard Paynic has been helping Krizan on the line which did not co-ordinate its efforts last week.

The starting lineup for Antioch at McHenry was: Dan Jones and Jerry Morris, ends; Oliver Harrell, later replaced by Robert Kraft, center; Kenneth Mattson and Kennedy Heuer, half-backs; Duane Weber, fullback; Joseph Cosgrove, center; Harry Shank and Jerry Pregrenzer, guards and Walter Kuligowski and Ray Oldgren, tackles.

A large crowd is expected to witness Friday night's game in which the Sequoits expect to beat the boys from Gurnee.

A horse show will serve to entertain the crowd between halves. Some high school girls who have been taking training in riding gaited horses will take the field to show off their mounts.

The starting lineup for Antioch Friday as announced today will be: Jones, right end; Ohlgren, right tackle; January or Shank, right guard; Bratrude, center; Cosgrove, left guard; Kuligowski, left tackle; Pregrenzer or Morris, left end; Harrell or Kraft, quarterback; Reckers or Heuer, right half; Weber, fullback, and Mattson or David Arthur, left half.

John Mikulitch Injured In Fall From Ladder Tuesday P. M.

John Mikulitch, a resident of Lake Marie for the past year, and a carpenter and painting contractor, was injured in a fall from a ladder Tuesday afternoon at Journey's End farm, Channel Lake, where he was engaged in painting a house.

The house, which is the home of Carl Clingham, is located on the west side of Channel Lake, and members of the rescue squad had some difficulty in finding the scene of the accident, due to having been directed to "Johnny's Inn," instead of the Clingham place.

Mikulitch received severe cuts on the head and was considerably bruised, but after receiving temporary first aid, a doctor was summoned and his condition was reported to be serious.

Dairy Labor War Brings Gun Fire in Antioch Area

Union Hi-jacks, Empties Milk Truck Sunday, Driver Says

Dairy labor warfare in Wisconsin carried over into the Antioch area Sunday night when two dairy trucks were fired upon and one was later hi-jacked and emptied.

Four men accused of stopping and emptying a truck of the Dairyland Co-operative association of Juneau, Wis., of 2,000 gallons of milk, were released on bonds of \$750 each by an Elkhorn, Wis., court Tuesday.

The four are Donald Hancock, James F. Luckey, Sears Harrison and J. H. Strauss, all of Racine.

According to reports, Leonard Pierce, driver of the Co-op truck was fired upon as he crossed the Wisconsin-Illinois state line with his truckload of milk bound for Chicago Sunday night. Pierce said four men were in a green colored car that fired at his truck and he did not realize that he had been fired upon until he discovered he had a flat tire.

Pierce said he drove into Antioch and sought aid of police and that they gave chase, but did not catch his attackers. He then called the co-operative station at Chicago and was told to turn back because workmen were refusing to unload the milk there. He said he then turned back and was in Walworth county when the same four men in a black car forced his truck to the side of the road and there opened the spigots so that the milk was spilled.

Fred Peterson, Antioch chief of police, said that he knew of no such incident here Sunday evening and that none of the police force had been approached for aid in capturing hi-jackers. He thought state police or sheriff's deputies might have received the request.

State police investigated another incident Sunday evening in which a truck of the Capital Dairy Co., of Watertown, Wis., was fired upon just after it crossed the state line from Wisconsin on Rte. 45.

Leo Allison, 45, of Watertown, said three men in a large sedan fired on him as he fled into Illinois. He said he drove to Wauconda where members of the union in two cars gave up the chase.

When he learned that he would be unable to deliver his milk in Chicago, Allison returned to Wisconsin, being escorted to the state line by state police from Elgin.

The labor union warfare involving the Dairyland Co-operative Co. of Juneau, Wis., dates back to last May when 63 employees voted 43 to 20 to join the American Federation of Labor Teamster's union. They demanded a closed shop, but 2500 dairymen, members of the co-operative association voted not to allow a closed shop.

Recently 15 of the 63 men went on strike and there has been bitter feeling between them and the 48 who remained on the job.

Contributions to Rescue Squad Fund Still Coming in

Contributions to the Lions Club Rescue Squad fund continue to come in, members of the committee of the Lions club which is supporting the campaign said this week.

The committee was not ready to announce total receipts this week preferring to wait until the next regular meeting of the club, Sept. 23. They will continue to receive donations throughout the year, however, and said that those who had been unable to contribute as yet will have opportunity to do so later.

The ready and quick response of the squad to outlying regions as well as to Antioch continues to give the area a greater sense of security and this has been reflected in the liberal gifts.

Among the more recent donors to the fund are:

Frank A. Hahn
John Mizen
A. H. Kaufmann
Elsie Schramm
Loren A. Trabert
B. G. Guillaume
Clara Wilton
E. S. Challinor
Leo Buchta

Oil for National Emergencies

It has been urged that, in the interest of national defense in some future emergency the government should take over certain oil fields, and that government, rather than the private oil industry, develop oil on public lands. These ideas are often accompanied by the additional suggestion that an enormous quantity of crude oil and oil products be stored indefinitely in preparation for the possible emergency.

This whole plan is in contradiction to the lessons of history. Emergencies are met by aggressive and highly developed producing industries. That was true in the last two wars. The very cost and mechanics of storage make it unfeasible to keep an adequate emergency supply on hand at all times. And it is not necessary to have large supplies on hand so long as the industry in question is able to immediately step up production to meet whatever need arises.

There will never be a shortage of oil for national defense. The reserves for that purpose, as one authority put it, "will comprise all the oil of the entire nation and owned by all citizens." When emergencies come, in other words, the government takes all that it needs and what is left must suffice for the rest of us. And to "lock-up" or freeze reserves under government ownership or control would endanger emergency supplies by hampering the producing industry at a

time when it would otherwise be developing, conserving and exploring old and new oil lands and mapping reserves to serve coming generations.

Oil consumption during World War II was unprecedented—but we never lacked for a single barrel. Better techniques minimized waste and loss, and kept our reserve supplies at adequate levels. Should another emergency occur, the oil industry, if it is left free of government restrictions which destroy initiative, will do whatever job is given to it.

Retailers and the Black Market

The head of a large retail trade association recently wrote Paul Porter, the present OPA administrator, pledging unqualified cooperation in controlling prices. One sentence in the letter said: "Now that the Congress has spoken, the job of all of us is to join in carrying out the law."

That has been the attitude of the vast majority of established retailers, chain and independent, since price control began. A great many of these retailers differ with provisions of the law and policies laid down by OPA. But, once the law goes on the books, they do everything possible to make it work.

All the talk about black markets has tended to cast an unjustified shadow over the retail industry. It is true that an enormous volume of goods moved through black market channels—and will continue to so move until supply catches up with demand. It is also true a very small percentage of established retail stores were never involved in the black market tie-up. The majority of these stores sold what goods they had at legal prices—and when they couldn't get new supplies they found substitutes or left their shelves bare.

The fine record made by retailing, now and in the past, must not be obscured by the unsavory activities of the few racketeers. Your typical store isn't out to exploit the consumer.

LOCK NO. 6 ON THE ILLINOIS AND MICHIGAN CANAL at CHANNAHON

Let's go exploring into the Past by way of historical spots in Northern Illinois. OUR LANDMARKS in the current Service Bulletin will be a guide if you feel like seeking out some of these spots at a later date. However, you may travel to sixteen of them without even leaving your armchair. You may visit friendly old mills, lovely churches, and pause by the Illinois and Michigan Canal with its century-old locks and Aqueduct. You may make discoveries. We have a lighthouse light that "went under the earth" instead of "under the sea."

The construction of one dwelling place was influenced by the curious combination of a cyclone and a barrel of flour. An inn of the romantic stage coach era was also the birthplace of a world-famous dancer. A tavern maintained two flourishing establishments—the tavern in front and a grocery in the rear. All sixteen landmarks are illustrated by John McKee.

The "About You and Your House" page stresses the lunch-box theme. The recipe page contains two sugar-savers—Quick Coffee Cake and Cottage Pudding.

As we were saying-----

By Jack and Louie

Howdy Folks: We heard about a
man who lived to be 94 years old
and never used glasses, but then
some men prefer to drink right
out of the bottle.

And, as some one has said, more
glasses are used under the nose
than over them, now days.

Of course the only exercise
some fellows get is chinning at the
bar.

We heard about one man who
was held up on his way home, but
his case isn't so unusual in view
of the fact that many men can't
get home any other way.

When some men go out to make
hay, they often start with a lit-
tle rye, but if they keep it up
long, they soon get to look a little
seedy.

If we could start you using our
dry cleaning service, we are cer-
tain that we would have you as a
steady customer after that.

Farm Prices Favorable For Hogs, Beef Cattle, But Costs to be Greater

The outlook for farm prices during the rest of 1946 and most of 1947 is generally favorable but the cost of production will be high. R. C. Ashby, professor of marketing at the Illinois College of Agriculture told Lake county farmers last week.

Because of high feed costs and price ceilings the feeding of hogs and cattle will be unprofitable for the next few weeks, but after that the new corn crop will reduce costs of feed. The supply of pork will be smaller in the late spring and summer of 1947 than this year because of the smaller 1946 fall pig crop, but supplies of good grade beef will be greater.

Lake county is not a great raiser of pork and beef, and this is especially true of the Antioch area where dairying prevails. The corn here is not as good as in other sections of the country because of the drought and a frost on Labor day which did damage in the low lands. Farmers are using much of their short corn crop for ensilage. Corn that grew well is now out of danger of frost.

Lunchbox Variety

Adding milk instead of water to canned soup is a good way to add variety to the box lunch and still provide part of the day's milk requirement.

RALLY DAY

Next Sunday, Septemb 22, will be Rally Day at Antioch Methodist church. At 9:45 the Church School hopes to have the largest attendance in its history. Every one who has ever attended our Church School should be present. Each one is asked to bring some one new who is not affiliated with any other Church School. Teachers and pupils alike should contact every member of their respective classes in order to insure one hundred percent attendance. What do you say? Let's put this over in a really big way.

At the eleven o'clock worship hour a specially arranged Rally Day program, including every department of the church, will be presented. It is especially hoped that every member and a great many friends of the church will be present. Your presence or absence will help or hinder the success of this day. Which shall it be, "Help or Hinder?"

As a part of this Rally Day service we will have baptism of children. Those wishing to avail themselves of this opportunity will please communicate with the pastor.

Warren C. Henslee, Pastor.
